

I writing to testify in support of SB345 AN ACT REQUIRING THE INSURANCE COMMISSIONER TO STUDY AND REPORT ON ISSUES CONCERNING CLIMATE CHANGE. I think that it's important for us all to consider climate change in our decisions in all aspects of our lives. I think that this is a first step in getting large investors (insurance companies)to consider the real costs of fossil fuel usage when considering investments in fossil fuel projects and infrastructure. I urge you to take this positive step by supporting this bill.
